**For Immediate Release:**

March 3, 2016

### **U.S. Department of Energy (DOE) Advisory Board Is Conducting Its 2016 Membership Recruitment Drive**

The U.S. DOE is currently accepting applications for membership on its community-based advisory board. The Nevada Site Specific Advisory Board (NSSAB) is comprised of rural and urban southern Nevada residents who provide recommendations to the U.S. DOE, Environmental Management Program regarding environmental cleanup activities at the Nevada National Security Site (NNSS).

NSSAB members meet as often as once a month and provide recommendations from a community perspective on radioactive waste management/disposal and transportation activities, the effects of historic nuclear testing on the groundwater at the NNSS, and other environmental remediation activities.

“It’s very rewarding to actively participate in the governmental decision-making process that impacts our environment,” said Donna Hruska, chair of the NSSAB.

No related training or experience is required. The U.S. DOE provides reimbursement for authorized travel expenses. To learn more, call (702) 630-0522, or visit the NSSAB website for a membership application at <http://www.nv.energy.gov/NSSAB>.
